Discover the Freedom of the Sandcruiser® Range

Whether you're exploring the beach, navigating rural trails, or conquering extreme dunes, the Sandcruiser® chairs are designed to go where others cannot:

- Beach: Glide effortlessly over soft sand with Wheel Eez™ 100% polyurethane balloon wheels.
- Gravel, Grass, and Trails: Perfect for uneven terrain, parks, and rural areas.
- "Dunes and Slopes: Designed for heavier users, the Dune Buster excels on steep inclines and challenging landscapes, offering enhanced stability and control with its upgraded front wheels and optional Handle Extension Bar. Both Sandcruiser® models empower accessibility, independence, and unmatched comfort, making outdoor exploration a reality for everyone.

Electric Beach Wheel (eBW): Revolutionizing Mobility with Power

PATENT PENDING

The Wheelleez™ Electric Beach Wheel (eBW) brings cutting-edge motorized technology to all-terrain mobility. Designed for soft sand, gravel, mud, and grass, the eBW provides effortless propulsion and superior control. Built with Wheelleez™' signature polyurethane balloon wheels, it enhances stability, reduces strain, and ensures smooth movement across challenging surfaces.

Key Features:

- **Power Assistance** – Smooth, reliable motor for tackling challenging terrains.
- **Dual 250W Motors** – Each wheel is powered by a 250W motor (2x250W for a pair), delivering efficient performance.
- **Top Speed of 7km/hr** – Optimized for safe and effective mobility.
- **Water Resistance** – Built for marine environments and wet conditions.
- **Integral Rechargeable Battery** – Convenient, long-lasting power supply.
- **Premium Wheelleez™ Wheels** – Made with 100% USA polyurethane for durability and the ability to Go Anywhere.
- **High Load Capacity** – Supports heavy weights while ensuring stability and control.
- **Reverse Function** – Enables easy maneuvering in tight spaces.
- **Braking Function** – Ensures safe and controlled stops on slopes and uneven terrain.
- **User-Friendly Control System** – Simple and intuitive operation for all users.
- **Flexible Control Box Mounting** – Adaptable installation options for various applications.
- **Versatile Applications** – Adaptable for Wheelleez™ products or custom mobility solutions.
- **Engineered for Durability** – Designed to withstand harsh conditions and rigorous use.

Enhance existing Wheelleez™ mobility solutions or bring your own ideas to life with eBW innovation.

A complete power solution for mobility and transport, featuring a motor, battery, and control system—all designed to work seamlessly with Wheelleez™ balloon wheels for superior performance on any terrain.

The eBW is a game-changing way to power your **Wheel EEZ** products — or to power your imagination
